Frequently Asked Questions

Where is the genealogy section at Cleveland Public Library?

Although the Library does not have a stand-alone genealogy section, it does have extensive genealogy holdings. These can be found in the **Center for Local and Global History, on the sixth floor of the Louis Stokes Wing.**

How do I get started?

Genealogy can be both rewarding and time-consuming. If you are new to genealogy research, we recommend that you take some time to determine what you would like to learn about your family. If you consider that you have four grandparents, eight great-grandparents and sixteen great-great grandparents, you can see that the research possibilities are extensive. To help focus your research, please visit www.familysearch.org/wiki/en/Research_Process to learn about the basic steps involved in compiling your family's history.

Will the library answer questions by telephone, e-mail or letter?

The Center for Local and Global History will provide quick reference answers to specific questions by telephone, e-mail or letter.

Will the library do genealogical research for me?

Although genealogy research is a self-directed activity, we are able to give general guidance and to help you answer specific questions. These include questions such as, "Where do I find my grandfather's naturalization records?" and "Where do I find a birth certificate for my great grandmother born in Nebraska in 1915?"

Does the library have my family's history/genealogy?

The Library does not collect family histories, though the Western Reserve Historical Society does. The Library does, however, have a small collection of family histories --for prominent families-- that were acquired before 1975. A subject search by family name in the Library's Online Catalog will indicate if we own a particular family history. In addition, the HeritageQuest database includes the full text of more than 25,000 family genealogies and county histories.

Why do some call numbers begin with numbers and some with letters?

Cleveland Public Library uses two classification schemes to arrange its collections. All books acquired before 1975 are arranged according to a modified version of the **Dewey Decimal System**. The Dewey system uses numbers in the top line (e.g., 989.22). Books acquired since 1975 are arranged according to the **Library of Congress Classification System (LC)**. The LC system uses letters in the top line (e.g., F 499).

I found a book in the catalog but it's not on the shelf. Where is it?

Because of the size of the Main Library collections, only a portion of any department's books can be housed in open stacks. Many older books are housed in closed storage areas at Main Library and off-site. With a few exceptions, all Dewey-classified books are in storage either at Main Library or off-site. Books in off-site storage usually take one day to retrieve (exception: books requested between Friday afternoon and Sunday afternoon are delivered on Monday afternoon at the earliest). LC-classified books that are in storage are stored downtown and can be retrieved within 15 minutes of your request. You are welcome to call in advance to have books retrieved and held for you.

May I visit the closed stacks (Main Library) and/or off-site storage?

We are happy to retrieve any books you wish to see. However, due to limited staff availability and security restrictions, there is no direct public access to collections in closed stacks or off-site storage.

How do I find a professional genealogist?

If you would like to trace your family tree but are unable complete the research, you may want to consider hiring a professional genealogist to do it for you. Here are two organizations that can help you locate a professional genealogist:

Association of Professional Genealogists www.apgen.org

Telephone (303) 422-9371

The online APG directory provides a list of professional genealogists with members' contact information, biographies, services and research specialties. The directory allows searching by specialty (such as ethnic group), location, zip code and residence of genealogist.

Cleveland City Directories

Much like a phone book, the city directory is an alphabetic listing of residents, businesses, public buildings, schools, societies, etc. Entries include name, occupation, and other information. Wives' names first appeared in the Cleveland city directory in 1929. Also starting with the 1929 directory, properties are listed *by address* at the end of each volume.

Complete Set Owned By CPL

The Center for Local and Global History owns a complete set of Cleveland City Directories on microfilm. The department also has an extensive, but incomplete, set of paper facsimile directories available for patron use.

Years Not Published

No directory was published for Cleveland proper in the following years: 1838-44, 1847-48, 1851-52, 1853-55, 1858-59, 1862-63, 1933, 1945, 1946, 1948, 1949, 1950, 1952, 1962, 1967, 1971, 1973, 1975, and 1976.

Digitized Directories

Select directories can be found on CPL's Digital Gallery. The Ancestry Library Edition database, provided free by the Library, also contains some Cleveland City Directories.

Directories for Suburbs of Cleveland

What Was Published

Prior to 1925, some suburbs adjacent to Cleveland were included in the Cleveland City Directory. Check each volume to determine coverage. Starting with the 1925 directory, the title page includes a list of suburbs covered in each volume. Suburbs included in the 1925 directory include: East Cleveland, Cleveland Heights, Shaker Heights, Bedford, Garfield Heights, Newburgh Heights, Bratenahl, Euclid Village, Lakewood and Rocky River. Linndale was included starting in 1927. University Heights was included starting in 1940. Starting with the 1951 directory, only the following suburbs are listed on the title page: Bratenahl, Brooklyn, Garfield Heights, Linndale and Newburgh Heights. Starting in the 1920s, separate directories began to be published for the larger suburbs of Cleveland. Starting in 1964, all of these separately published directories were merged into either the "Cleveland East Suburban" or "Cleveland West Suburban" editions.

The Probate Microfilm Room (room 31) maintains several helpful indexes, including the Historical Marriage Index, the Index to Estates (1852-1997) and the WPA Index to Birth Records (1868-1908).

Records

- Birth Records, 1868-1908, microfilm (Probate Court Microfilm Room). These show parents' names and date of birth. These records were created by doctors, midwives, family members or assessors. Before state law required birth records to be kept in 1867, births were often not recorded or were recorded some time after the event.
- Death Records, 1868-1908, microfilm (Probate Court Microfilm Room). These show decedent's date of death, age, address, cause of death and cemetery.
- Divorce Decrees, current five years: SEE Cuyahoga County Court of Common Pleas section.
- Divorce Decrees, 1865 to records from five years ago (Common Pleas Court Microfilm Room).
- Estate Records, 1810 to date (Probate Court Microfilm Room). These records show decedents' address, heirs and assets. There is a book index covering 1810-1896 and a microfiche index covering 1852-1997, copies of which are located both at the County Archives and at the Court House. Other indexes: Index to Wills that have gone through probate, 1879 to date. Computer Index to Estate Records, 1852 to date (staff access only). [**Helpful resource:** Cleveland Public Library's Center for Local and Global History owns a copy of *Abstracts of Wills, Estates and Guardianships, Cuyahoga County, Ohio Common Pleas Court, 1811-1852*, published by the Ohio Genealogical Society. Call Number: Ref. F 497 .C9 A27 2003.]
- General Case Files, 1919 to date (Probate Court Microfilm Room). These files cover guardianships, appropriations, land sales, trusteeships, changes of name, and legitimizations. Records for 1811-1918 are at the County Archives.
- Guardianships, 1810-date (Probate Court Microfilm Room). There were very few filings in the early years, perhaps because families did not feel the need to have formal guardianships for incompetent adults or minor children. Around 1950, the numbers increased. These records include the names of the parties involved, ages of minors, inventories and accounts if required.
- Marriage Records, 1811 to date (Marriage License Bureau, Room 146)* The earlier records show only the parties' names, date of marriage and who officiated. Later records evolved to include parties' names, places of birth, ages, occupations, parents' names, previous marriages and minor children.
- Name Changes, 1868-date (Probate Court Microfilm Room). There were very few filings in the early years. Around World War II, the numbers increased.
- Wills: See Estate Records
- The index to marriage licenses issued in Cuyahoga County from 1810 to April 1998 is maintained by the Judges of Probate Court. The index for 1810-1998 is available electronically at <http://probate.cuyahogacounty.us/pa/CaseSearch.aspx>. The foregoing URL leads to a general index to Probate Court's docket for all cases and includes index entries for marriage records within it. Cemetery Records/Funeral Home Records

Cemetery Inscriptions: The Library's Center for Local and Global History owns many published lists of cemetery inscriptions. Inscriptions are usually shelved with the reference books related to the place where the cemetery is located. A keyword search of the Library's Catalog using the terms "cemetery inscriptions" will yield a list of possible titles, but keep in mind that there may be similar titles in the Catalog that don't include these search terms. (Many genealogical societies have made cemetery inscriptions available on the Internet as well.)

Cemetery Directories: The Center for Local and Global History has cemetery guides including: *Cleveland Cemeteries: Stones, Symbols and Stories* (Call Number: F 499 .C692 A2 1999), *Ohio Cemeteries* (Call Number: Ref. F 490 .O3618) and *Cemeteries of the U.S.* (Call Number: Ref. RA 626.3 .C45x). Use these books to determine the location of cemeteries and their records.

Funeral Home Records: Funeral homes that have been in operation for a long time often have historical records that may be helpful. Busch Family Funeral Chapels, for example, has complete records going back 100 years. Cleveland Public Library maintains no funeral home records.
