COLLECTION DEVELOPMENT

Superseded USGS Maps
Weeding of superseded USGS Maps: Bryan Hill, Natural Resources Conservation Service (NRCS), United States Department of Agriculture (USDA) has requested the sets for Utah & Minnesota. Postings to several lists, and emails to a number of individual libraries with map collections, have resulted in a small number of takers and has reduced the size of the collection. However thirty-one state sets (42,274 items) remain. Negotiations are in progress with an energy company, Breitling Energy Companies, in Texas to take the remaining thirty-one state sets of these superseded USGS maps. Breitling is willing to pay for the boxes and for the shipping of the maps to their headquarters.

Did some light weeding in LC section PR 4000.

These weekly spending rates will be adjusted throughout the year to assure a steady flow of materials through Technical Services and new materials arriving at Branches and Main Library agencies. Altered distribution formulas were implemented which will help control the spending rate of each budget.

Bonnie Bolton, Nancy Mocsiran and Rollie Welch, along with Lisa Kowalczyk of the Acquisitions department, collaborated to provide training for Youth Services staff on using Ingram iPage for monthly discretionary ordering. One-on-one sessions were also offered for Youth Services staff unable to attend the group sessions. Ms. Mocsiran also constructed a survey intended to gauge patron interest on specific single issue comic book series purchased for each Branch. Laura Mommers visited the Mobile Library to discuss collection needs for the bookmobile. Collection Management staff relocated fifty telescopes of materials in January. The combination of print and non-print items were sent to Branches, the Friends of the Library book sale, or Cleveland Public Library collections housed at Cleveland State University, Case Western Reserve University, Cuyahoga Community College Metro Campus (CSU, CWRU, CCC).

Ms. Mommers ordered 473 DVD titles (3,037 DVDs) for the Branches and the Audio Visual department. She ordered 213 CD titles (1,729 CDs) for the Branches and Popular
Library. Ms. Bolton selected a total of 2,844 books for children and young adults.

Midwest invoices began to be paid late in the month. Other vendors' invoices will be added as possible.

EDI order and invoice reports were reinstated to run automatically again.

Alicia Naab, Acquisitions Coordinator, assisted Carole Brachna, High Demand Manager, with the updating of the templates used for gridding orders in vendor websites to reflect changes made to the ordering distribution formulas for 2013 and worked with Hilary Prisbylla, Library Systems and Applications Specialist, to delete ordermap templates in Sirsi that were no longer needed. In an effort to become more “green” and shift to a more paperless environment, Acquisitions transitioned the Main Library Subject Departments to using email to communicate when selection lists are ready to be ordered instead of sending paper copies in red bags and the
selectors will receive a reply confirmation to their original email from Acquisitions once their selection list has been ordered. These new procedures have helped to streamline and expedite the processing of selection lists for Main Library Subject Departments.

Sandy Jelar Elwell, Acquisitions Manager, and Ms. Brachna continued to work with Laura Armstrong, Financial Services Manager, and Jim Benson, Information Technology (IT) Department, to revise the documentation for the procedures for the automatic payment of Electronic Data Interchange (EDI) invoices and implement these new procedures. The new procedures were implemented in the Acquisitions and High Demand Departments on 01/14/2013. This list will be used by the Main Library Subject Department Managers to review and make any changes to the subscriptions for their Departments. Ms. Naab and Mr. Infante worked with Rollie Welch, Collection Manager, to create and update the email addresses, usernames, and passwords for Branch logins for the vendors Ingram and Wolper. Mr. Infante is also working with Mr. Welch to create instruction sheets for using the Wolper website and how to claim periodicals. Lisa Kowalczyk, Technical Services Librarian, assisted Mr. Welch with his presentation on the new procedures for ordering from the vendor Ingram and with the group training session on ordering from Ingram for the Youth Services staff.

They created 31 and modified 73 serial controls.

CPL Board minutes from 2001-2008 were digitized instead of being microfilmed. City Directories from 1938 and 1942 were added to the Digital Gallery.

Renee Pride matted 15 WPA prints for exhibition in Special Collections as a supplement to the traveling WPA exhibit. Ten WPA ceramic sculptures were also selected and packed for the supplementary exhibition. Gloria Massey scanned 20 glass plate negatives of James A. Garfield family portraits from the Edmondson collection and started scanning the Hanna family portraits. She prepared PDF files for the final 3 volumes of the Ohio Architect, Engineer, and Builder. Elizabeth Bardossy treated 21 park plans and treated two volumes in preparation for digitization. There were 4,311,691 pages of the Digital Gallery viewed by the public in January.

Catalog: Librarians cataloged 2,865 titles and added 2,172 items for Cleveland Public Library. The Catalog staff began the self-training process for Research Description and Access (RDA), the new cataloging standards. In addition to following the training schedule outlined by Andrea Johnson, Barbara Satow watched some video presentations and webinars on Functional Requirements for Bibliographic Records (FRBR) and how RDA compares to the Anglo-American Cataloging Rules (AACR2). Michael Monaco completed the online, self-directed course of webinars called “RDA in NACO
training," and can now begin to submit name authority records created according to the RDA rules. Larisa Povitsky listened to a webinar “Introduction to RDA," read “RDA and AACR2 monographic cataloging: major differences” and “The FRBR model.” John Parsons also listened to some extra webinars.

Mr. Monaco developed and implemented a process to create catalog records for OverDrive titles using the metadata provided for free by OverDrive rather than using the OCLC records the Library had been purchasing. The process results in full catalog records for about two-thirds of the titles and brief records that provide title/author access for most of the other titles purchased from OverDrive. Technical Services Associate Karima Ward assisted Mr. Monaco in this project by demonstrating batch processing in OCLC’s Connexion Client.

Carole Brachna, High Demand Manager, and Dawntae Jackson, Human Resources assisted Ms. Johnson with interviewing for a Technical Services Librarian (Slavic language emphasis). Mr. Monaco also created a blog for the Ohio Library Council’s Technical Services Division and serves as its moderator.

The new winter storytime schedule for 2013 was updated on the Kids site in Parent Resources.

**PROPERTY MANAGEMENT**

The Property Management office completed numerous branch inspections and continues to monitor utility bills. We are attending weekly construction meetings for the temporary South Branch. Paper work was submitted to receive a rebate for the completion of the lighting project in Main.

Maintenance Mechanics continue to maintain the buildings for the safety and comfort of patrons and staff. A new drinking fountain was installed at Carnegie West. Due to low outdoor air temperatures air handling unites in LSW and Main coils froze and sprung leaks. The leaks at LSW were discovered by Safety and Protective Services during their rounds at night and they contacted Property Management. The leaks were located and the water was shut off but, not before the sub basement of LSW and under the Auditorium was flooded. The water has been removed from the sub basement of LSW and the Auditorium. We had a company come in to check out the electrical distribution system to insure that everything was ok with it due to the level that the water reached. The leak in Main was discovered and the unite was shut down in time to prevent major water damage. Work is being completed to put these unites back on line. The electrical disconnect to the fire pump for LSW was found to be defective and replaced by any outside contractor.

The Carpenters and Painters worked to prepare the branch for the MLK program. Roof leaks were repaired at Fleet, Lakeshore, Main, South, and Union.

The Garage serviced vehicles #3, #16, and #20. Front and rear breaks were installed on vehicle #25. The oil was changed in #4, #11, and #21. Salt has been restocked at all the branches. Snow removal at all branches.

Security Systems

- Will develop schedule concerning upgrades to access control.
- Will obtain estimate for upgrade for Fire System at LSW/Main

Communications Center

- The communications center is being staffed and processes are being developed to engage in active surveillance of CPL properties. Safety & Protective Services is also continuing to refine communications procedures to meet streamlined communications processes and increase efficiency of response.

Contract Security

- Safety & Protective Services has directed, at Property Management’s request, to staff South Branch for fire watch weekly. G4S is unable to staff the South Branch.
- G4S is not able to staff Fleet, Brooklyn Branch, Carnegie West Part Time, and Fulton Branch. Fleet, Addison, E-131, and Walz contract guards are awaiting background checks from G4S before being able to be staffed.
**Records and Equipment Management**

- The Motorola radios were added to the CPL SPS inventory.

**Administration**

- Three candidates have been hired for SPS officer positions and are currently undergoing training.

**Information Technology & Clevnet**

On the first business day of the new year, PIN masking was implemented in the SirsiDynix system. This closes a privacy vulnerability in that staff can no longer see a patron’s PIN number, leaving the patron as the only person that could possibly know the PIN. This necessitated procedural changes for staff at CPL and Clevnet libraries when helping patron who forget their PIN. There was already an existing web function that will email a patron their PIN if they have forgotten it.

Network staff worked to resolve some unusually high volume traffic from the internet into the Clevnet network. Alterations were made on the firewalls that have since improved performance of the firewalls and network.

**CPL Projects**

IT and Property Management staff responded to potential computer room damage by way of a flood by shutting down systems in the computer room to prevent hardware and data loss. Property Management staff averted the potential for disaster and IT services were reinstated and returned to normal. This was an after-hours event between 1:00 and 3:00 AM.

On January 18th, IT/Clevnet managers and representatives from Administration, Financial Services and the Knowledge Office attended a demonstration and information session about Microsoft SharePoint at the law offices of Squires Sanders and Dempsey. Robert Bower, a former CPL IT employee now at Squires, was instrumental in arranging the meeting. Representatives of the implementation and support teams at SSD were present to demonstrate the firm’s use of SharePoint and to answer questions about best uses of SharePoint, and the expertise and effort needed for implementation and
support of deployed platforms. It was a valuable morning and we are appreciative of the time and expertise offered by the SSD staff and Mr. Bower.

In preparation for the move of South Branch to the temporary location, Software produced some lists for Collection Management, one of Spanish language titles and one of print materials owned at South that have less than 3 copies in CPL altogether. The latter will aid in retaining or redistributing these copies to other facilities.

Martin Luther King branch received four new Windows 7 PCs for the public children's area.

Software staff assisted the History Department with a list for the Cleveland Documents Microfilm Project.

Software worked with Outreach and Programming Services (OPS) to use the SirsiDynix software to check out tickets in a pilot program with the Cleveland Play House. This required creating a new item type and circulation map entries in the SirsiDynix configuration, and scripts to manipulate data and provide lists and information to OPS. The Knowledge Office will also receive statistical data for these check outs.

IT staff worked with HP support to resolve a software issue on a key system that manages data storage for the catalog and the Oracle database that houses catalog data.

The annual acquisitions rollover process exposed a flaw in the script that creates a report of funds encumbered for open orders at CPL. The old data structure was only able to associate one fund with an order. The script was modified to account for more than one fund per order.

Software discarded approximately 1600 items for CPL Government Documents as part of their continuing collection cleanup.

The Windows server that handles Microsoft Volume Activation Key Management Services (KMS) was updated to support Windows Server 2012 as well as Windows 8. This allows the new operating systems to be licensed automatically.
New switches were installed in Louis Stokes wing for the new wireless access system.  
Three weeding lists were done for CPL.

The new winter story time schedule for 2013 was updated on the Kids site in Parent Resources.

CLEVNET Projects

An issue was resolved with Freegal and how it was authenticating patrons for access. Library Ideas had inadvertently switched authentication to card prefix. The Web Applications Manager worked with them to change the SIP call back to checking “Home Library” for authentication.
In anticipation of a flurry of eReader/tablet questions the week after Christmas in addition to the new eMedia platform launched in November, the Webware team offered live eMedia chat support for all CLEVNET library patrons. Chat was available on December 26-28, 31 and January 2-4. CLEVNET libraries were provided with a graphic to help promote the service on their websites, and a link was also added to the CLEVNET eMedia homepage. Sixty-four chat sessions were logged by Webware and most sessions lasted around 15 minutes. The majority of chat sessions were simply getting people set-up with the software or mobile app. Patrons were very appreciative of the service as were CLEVNET Directors for the additional support option.

After receiving several reports of patron record adjustments in SirsiDynix not being reflect in the NetNotice database used online by the public and vice versa, database was refreshed. A full refresh will now be done on a monthly basis.

The CLEVNET IT department received, configured and installed new software for the CLEVNET PaperCut server to provide support for any CLEVNET libraries planning to utilize the multifunction printer solution from Xerox.

Medina's Microsoft Exchange server used for their email system was adjusted so the users have more mail box storage. This corrected a problem where frequent reboots were required to keep mail running.

Software created a statistical report for Elyria showing activity for Midview district patrons in 2012 and 2011. This was to aid the library in service planning for that district.

An additional wireless access point was installed at Shaker Heights Bertram Woods. IT staff and Comprise support reconfigured the SAM system for the Shaker Heights library to allow their patrons to use the SAM system without PINs.

A new educator profile was created and associated circulation map changes done for Ritter Public Library.

Completed yearly acquisitions rollover process for CPL, Orrville, Ritter and Shaker.
The Software team created fifty-six weeding lists for CLEVNET libraries during the month. Two switches were configured and installed at Shaker Heights for VoIP project.

Know-It-Now

The KnowItNow Statewide Coordinator participated in the American Library Association Midwinter Meeting in Seattle this month. In addition to his duties as Co-chair of the Virtual Reference Services Committee and a member of the Reference and User Services Association Conference Program Coordinating Committee, he also attended discussion forums, exhibits, and sessions to discover ideas and information to share with librarians staffing KnowItNow.

The KnowItNow Website Coordinator spoke to the CLEVNET Directors' Meeting on January 25 to share information and answer questions on the upcoming change in after-hours coverage coming in July.

The KnowItNow Website Coordinator attended a Sharepoint symposium with other Cleveland Public Library staff and subsequently shared his insights with the IT department heads.

The KnowItNow Website Coordinator wrote a program to convert a PDF of PRTG (router traffic) data to text and use that to generate a report for the Acting Director of IT. The resulting program also has practical applications for KnowItNow.

The KnowItNow Website Coordinator also assisted Software in IT to resolve an issue with the NetNotice database.
