**RESOLUTION AUTHORIZING AGREEMENT WITH INTEGRATED PRECISION  
SYSTEMS, INC. FOR TIGER TECHNOLOGY SURVEILLANCE BRIDGE  
SOFTWARE**

WHEREAS, The Cleveland Public Library has made significant upgrades to its security infrastructure as part of the Facilities Master Plan and has deployed advanced camera systems at the seven newly re-imagined branches, accounting for a total of 311 camera views; and

WHEREAS, The scale of this infrastructure upgrade, however, has created an unforeseen challenge: due to the large file sizes generated by the cameras and the limited network speed of the Library's network, surveillance videos have not been able to be transferred and centrally stored as originally planned; and

WHEREAS, In order to help the Library to effectively retain its surveillance video footage, the Library's video surveillance vendor, Integrated Precision Systems, Inc. ("IPS"), performed a 45-day trial of surveillance bridge software from Tiger Technology; and

WHEREAS, The results of the trial were promising, and the Library was able to successfully transfer video footages from three separate branches and will be able to increase its video storage capacity to 30 days; and

WHEREAS, IPS has proposed to provide the Tiger Technology software for a total cost of \$27,697.40, which amount includes licensing for the 311 camera views, installation and configuration of the software, and software maintenance for the first year; now therefore be it

RESOLVED, That the Board of Trustees of the Cleveland Public Library hereby authorizes the Executive Director, CEO or his designee, to enter into an agreement with Integrated Precision Systems Inc. to provide and install the surveillance bridge software from Tiger Technology for a total price of \$27,697.40 subject to approval of the Director of Legal Affairs, with the expenditure being charged to the General Fund Account 13010055-55540 (Software).
