I want to express my deep appreciation for the help of Kevin Ray assisting me with the fax machine, computer and other operational components needed in order for me to send my time sensitive information involving my work with National Action Network as a Chief Civil Rights Investigator. Traveling to complete cases in Ohio that are assigned to me has been very hectic, but walking into the Nottingham Library and meeting Mr. Ray turned things around for me. Mr. Ray is a true asset for the library! I will be recommending your library for use to my colleagues when working in the Cleveland area.

Sincerely,

 BA, MSCJ, CSI, Ph.D. Candidate
